

Credit Card via BitGold!

(Introducing BitGold and News – by: BitGold.com)

You can find Goldmoney's own Support Page with all the existing help at this link:

[Goldmoney Support](#)

Here we have a ground breaking new service provider named as BitGold. The creators of this new service joined in to the ongoing revolution of internet finance and made it possible, to have physical gold through an easily accessible internet platform and to make transfers, payments on the internet in gold. Their mission statement says it all: „BitGold's mission is to provide global access to gold for secure savings and transactions, making an extraordinary element useful and empowering again.”

BitGold is simply combining the modern technology and the most reliable and oldest medium of value creating the ultimate platform for transferring internationally and instantly the oldest form of money with security, flexibility and rapidity. To be honest, we cannot think of any better payment alternative, this service covers them all.

“We're advancing the digital payments revolution by helping people securely acquire, store, and now spend gold with unprecedented simplicity. Accounts are free and can be opened in minutes. We provide users with a secure vault account to purchase and hold gold, the ability to make and receive instant gold payments, and a debit card for spending gold at traditional points of sale.”

(How To Video: Creating a BitGold Account – by: BitGold.com)

The account creation takes 3 easy steps, only the most basic and most necessary details are required. Once the account is created, actual GOLD could be purchased in minutes from different Brinks vaults in different places of the world. And gold payments determined in fiat currencies could be sent online simply by using the e-mail address of the payee. No unnecessary verifications, questions, simple as it is.

The process is as simple as possible and the system is fine tuned to a state of the art condition. Just a few facts to show how serious this is.

- You can own physical gold at within 1% of the official gold price
- Every gram of gold in your account is your property: fully reserved, allocated, and redeemable
- You can purchase gold in cash via BitGold ATM, Bank Wire Transfer, All Major Credit and Debit Cards, China UnionPay, INTERAC, and SEPA transfers
- You can redeem gold value back to your bank account, credit card, INTERAC, or SEPA at within 1% of official gold price or have the actual gold shipped to you via courier
- Free storage at private vaults secured by Brinks in Dubai, Hong Kong, London, Singapore, Toronto, and Zurich, among others
- 100% insurance coverage on your gold value the London market by The Brink's Company

- The system is covered with military grade encryption (RSA 4096 and AES256) to secure your account and personal information
- Multi-Factor Authentication verifying identity via phone (sms), strong password, and One Time Passwords
- Send or Receive Gold Payments for Free

We believe this service provider cannot be beaten, every end is covered in line with the highest possible standards and solutions, making Credit Card payments possible within minutes. It is highly recommended to check their service and register, also to redeem the free 0.025g GOLD for using our referral link. :)
